

MULTIMEDIA HUB

The Multimedia Hub provides a myriad of resources like audio-video editing workstations at the Visualization Suite for students who wish to develop their own multimedia audio and video projects in a professional setting. These advanced IT equipment encourage creativity in learning, enabling students to hone their presentation skills.. With this innovative connectivity hub, guests can connect their electronic devices to in-room HD TV with ease, which allows them to enjoy their own personal multimedia entertainment like music, videos, pictures, games, business presentations and more.

Our easy-to-use, low-profile multimedia panel acts as a gateway for the guest to enjoy personalized in-room entertainment. Also It is providing USB charging port, wireless Bluetooth capability and internet connectivity.
